

ROBO EXPO

SAN DIEGO COUNTY
OFFICE OF EDUCATION

A gathering of teachers, students, parents and community members to explore resources for robotics teaching and learning opportunities for grades 5-12

Sunday, November 11, 2007

10:00 am – 3:00 pm

**Ruben H. Fleet Science Center
1875 El Prado, San Diego, CA 92101**

**Registration not required, event update at:
<http://www.sdsa.org/robotics>**

- **Exhibitors on site will include:**
 - **Botball Teams**
 - **Legoland FIRST Competition**
 - **Mars Exploration Rovers, JPL**
 - **NOMAD Project, Neurosciences Institute**
 - **SPAWAR Robotics Solutions**
 - **And more**

Exhibitors plan to demonstrate and inform participants about their programs and how schools and individuals can become involved.

SDSA Robotics Program
<http://www.sdsa.org/robotics>

Mission: The San Diego Science Alliance Robotics program strives to enhance science and mathematics teaching and learning in classrooms and informal settings by networking to provide resources, expertise and access for upper elementary, middle and high school.

Vision: For science, mathematics and computer science teachers to have access to opportunities to implement robotics programs in classrooms and after-school settings, including materials, curriculum and support.
