

ENGLISH LEARNERS IN SCIENCE CLASS K-8 WORKING SESSION

"All students are expected to acquire skills such as discussing, analyzing, reading, and writing in ways similar to those of a practicing scientist." (Taking Science to School, 2008)

Bring a **new tool** into your science curriculum planning - "English Learners in Science Class" (SDCOE, 2009). This dynamic tool will assist you in identifying the instructional strategies in your district's adopted science instructional materials that best support language acquisition and understanding of science content.

Add to your curriculum map the SDAIE strategies that are aligned with your science instructional materials.

Bring your Science Teachers Edition textbook to a fast-paced session (or invite the SDCOE Science Coordinator to facilitate a session with your grade level team) and find out how to enhance your science teaching with the tools you have at your fingertips.

English Learners in Science Class is available online at www.sdcoe.net/lret/science

North County Regional Education Center
255 Pico Avenue
San Marcos, CA 92069
4:00 pm – 7:00 pm
NO FEE
